

GHP GREENStart

Certification Support Service

GHP GREENStart is designed to support our certification programme and is recommended for all new businesses wishing to achieve the Green Hospitality Eco-label or Award.

The service includes a site visit where the programme and the criteria and requirements for the business will be explained. During the site visit an initial completion of some of the tools and templates and verification sheets and general documentation will be applied so that the business understands the process.

A general walk through of the site will be undertaken and some broad opportunities identified.

The GHP GREENStart includes:

- One year's membership of the GreenHospitality.ie programme
- Initial Eco-label application desk audit
- Site visit
- General opportunity identification
- Benchmarking – Demonstration of Workbooks and how to complete them

Cost

A GHP GREENStart Certification Support Service costs €995 plus VAT

What Actions do you need to do?

Prior to Site Visit

- Gather previous 12 months utility bills (Energy, Waste, Water)
- Complete, where possible, our pre-visit information schedule

During Site Visit

- Provide access to all parts of the building and plant – front and back of house
- Provide any information requested to be available
- Ensure your Green Champion is on hand for the site visit

A site visit generally takes approximately a half day and, for a hotel, includes an overnight stay to enable a holistic overview to be undertaken.
